Dear Colleagues

We would like to cordially invite you to join us for our 22nd Annual Meeting of the Society for Virology from 14 to 17 March 2012 in Essen. Preparations are in progress and it is our great pleasure to provide new and steadily increasing in-depth information.

As in recent years, we are confident that the preparation of a suspense-filled programme reflecting the innovative potential in virology will succeed. Our field of expertise has reached a determining point concerning the diagnosis and explanation of diseases' pathogenesis caused by viruses. In this context, our Annual Meeting is accompanied by certain expectations of new results and inspiration regarding the prevention, diagnosis, therapy and control of infectious diseases.

Again, it is our aspiration to acquire internationally renowned speakers to give valuable insights into the state of knowledge gained by research institutions around the world. We would like to encourage you to enrich the scientific programme by submitting interesting scientific results!

This year our foreign partner will be the Chinese Society of Virology and Microbiology. A large number of German institutes have good scientific contacts to corresponding institutions in China. This meeting may help to intensify scientific cooperations in the future.

We are looking forward to the further organisation and development of the Annual Meeting of the Society for Virology 2012 and to sharing interesting, comprehensive and diverting days in Essen!

On behalf of the organising committee I remain with kindest regards,

Yours

Michael Roggendorf

Workshops

- Adaptive Immunity
- Antiviral Therapy and Resistance
- Clinical Virology
- Diagnostic Methods
- DNA-Viruses
- Hepatitis Viruses
- Herpes Viruses
- Host Cell Factors and Modulation
- Innate Immune Response
- Negative Strand RNA Viruses
- Positive Strand RNA Viruses
- Retroviruses
- Structure and Assembly
- Vaccination and Epidemiology
- Vectors, New Vaccines
- Viral Pathogenesis
- Viral Replication
- Virus Receptors and Entry
- Zoonoses

Abstracts

Abstracts should be submitted according to the workshop topics above.

Please submit your abstracts online via www.virology2012.de.
Deadline for abstract submissions is **10 January 2012**.
